We welcome you to visit our facility

Quest Service Labs provides printing solutions to meet the tough challenges of modern labeling needs from turnkey labeling systems, RFID printers and scanners to label application software and labeling automation. Our professionals are factory trained by every manufacturer we partner with, giving us the technical expertise to service and maintain your system from sale to upgrade.

RFID

QSL provides many RFID mandate solutions for the Department of Defense, WalMart and SAM'S Club. This includes our QSL TagManager software written exclusively for the first RFID laser printer T640m by LEXMARK. For the high volume manufacturing organizations, we will provide RFID automation labeling equipment by CTM Labeling Systems. QSL offers the latest in RFID hardware and software.

Pressure Sensitive Labeling Equipment

QSL provides a complete product offering of labeling applicators, printer applicators and custom labeling systems to include front/back, high speed wrap, cd/dvd spine, pail, clamshell, semi-automatic, vial, forms feed tables, bottle, RFID, three roller indexer, hugger and more. The labeling equipment is built in the heartland of America. If you would like to lease a labeling application solution – call us so that we may help.

Printers - Sato, Zebra, Datamax, Lexmark, HP

QSL offers a full line of new printers – Sato, Zebra, Datamax, Lexmark, HP. Our printers are designed to meet the requirements for a wide variety of applications.

Call to arrange a service call for your current printer(s) and take advantage of our rental program

Call to lease a new or refurbished printer.

Mobile Devices - Motorola, Unitech, Datalogic, Symbol, Hand Held

Mobile devices free employees from having to be tied to a desktop workstation. They allow you to run batch applications or integration into your wireless network, whether your employees are out in the field or in a warehouse environment. QSL can help you in choosing the right hand held for the job. Tired of carrying too many hand held devices? We can provide you with hardware that combines your PDA, Scanner, and Cell Phone all into one device. Ask QSL how we can help you become mobile today.

Software

QSL offers label design software, custom written software, inventory control software, RFID related software. The software enables any organization to quickly and easily implement automatic identification and data collection (AIDC) software solutions on the desktop PC and beyond. Whether your AIDC software requirements are on the PC, on the corporate server or in the mobile enterprise, Quest can help. Give us the opportunity to help you choose the best software solution for your needs.

Ask us about our Depot Repair or visit our website at www.questservicelabs.com. At the top of our home page click "Service" then "RMA" and complete the form. We will respond immediately.
